

Spectrolytic Ltd is a young and innovative company that develops and sells spectroscopic analysers for the most challenging measurement problems. We have developed an exciting product portfolio and are working closely with many international companies.

Work should be rewarding and fun. We offer flexible working hours to fit in with family commitments and/or childcare, working from home and exposure to worldwide clients big and small.

With our German partner company Spectrolytic GmbH we are “Brexit proof” and we work very closely together to optimise the service to our customers.

Our remote sensor products combined with sophisticated analytics have seen a significant growth in recent years and to support the existing team, we are now looking for suitable candidates to join our team in Edinburgh as a:

Hardware Engineer / Manufacturing Engineer

The ideal candidate has at least 2-5 years' work experience in a hardware focussed role and should be able to work independently. You are expected to liaise closely with the manufacturing site in Germany and contribute to the efficient manufacture of existing and new products. You will also be involved in monitoring installations of our products and provide regular updates stakeholders.

Our technology is very specific, and we appreciate that you might not have all the required skills yet. For us, the ability to learn new skills is the most important characteristic we look for.

Your key task

- Interfacing to the German manufacturing operation
- Assembly, testing and characterisation of our products
- Characterisation and optimisation of key components
- Monitoring of remote sensor installations

Your profile

- Very good understanding of electronics at board and system level
- Debugging systems and ability to rework PCB's
- Good IT skills (i.e. software installations, troubleshooting, networking, etc)
- Some exposure to manufacturing operations (process/systems)
- Optics/mechanical background advantageous .
- German speaking to liaise effectively with sister site.

We offer

- Competitive Salary
- Flexible working hours
- Excellent opportunity to grow and develop with the company
- Pension Contributions

If you think you have the required technical and personal skills, then please send your resume via email to info@spectrolytic.com
